1. The following is an examiner's statement of reasons for allowance: The primary reference mandates that the oligomer should have a higher melting point than the oligomer. Applicant's specification states on page 10, lines 5-14, that the melting point of the oligomer most preferably does not exceed the melting point of the polymer. This statement together with the Example on page 11 serves as adequate antecedent basis for the amended claims and it enables them too.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
